
Literatur

Bücher:

- John P. Hayes: Computer Architecture and Organization
Mac Graw Hill 1989 / Computer Science Series
- John L. Hennessy,
David A. Patterson: Rechnerarchitektur
Vieweg, Braunschweig, 1994
- Hans Liebig,
Thomas Flik: Rechnerorganisation
Springer, Berlin, 1993, Springer-Lehrbuch
- H. Bähring: Mikrorechnersysteme
Springer 1991 /Springer Lehrbuch

Paketvermittlungstechnik:

- Peter R. Gerke: Neue Kommunikationsnetze
Springer, 1982

CISC-Rechner:

- Intel 8086, Intel 80386: Processor reference handbooks
- Motorola 68030: M68000 Family Reference
Motorola Inc. 1988

RISC -Architektur:

- D. A. Patterson,
C. H. Sequin: RISC I
IEEE Trans. Comp. 1982, 8 ff
- D. A. Fairclough: IEEE Micro, 1982, 8 ff

RISC-CISC-Maschinen & Superskalare Rechner:

- | | |
|------------------|--|
| AMD K6 | Tom R. Halfhill: AMD K6 Takes on Intel P6
BYTE, Januar 1996, pp 67 - 72 |
| IDT C6 | Peter Varhol: Overhauling the Pentium
Computer Design, Juli 1997, pp 38 |
| Risc- Processors | Ray Weiss: RISC takes gold in processor Olympics
Computer Design, November 1996, pp 61 - 78 |
| VLIW | Tom Cantrell: Architecture is dead? Long live architecture!
Computer Design, September 1997, pp 108 - 112 |

Sprachunterstützende Architekturen:

- | | |
|----------|---|
| X-puter | Alexander Hirschbiel
A Novel Processor Architecture Based on Auto
Data Sequencing and Low Level Parallelism
Dissertation, Kaiserslautern, 1991 |
| Rekursiv | Dick Pountain:
Rekursiv: an Object Oriented CPU
Byte, Nov 1988, pp 341 -349 (1988) |
| Lisp | W. Eicher, E. v. Puttkamer
A New Strategy for Interpreting Lisp
Microprocessing and Microcomputing 18 (1986), 81 |
| Starlet | Wolfgang K. Giloi
Rechnerarchitektur
Springer, Berlin, 1991, Springer-Lehrbuch |
